Usability Evaluation of "WonderPets System"

PART I. Consent Form

This study aims to evaluate the usability of the **WonderPets System**, which is designed to manage pet services such as consultations, appointments, and client interactions. The purpose of this study is to determine how easy and effective the system is for users.

If you agree to participate, you will be asked to use the system prototype and explore its features. Afterward, you will answer a short questionnaire called the System Usability Scale (SUS) to share your experience while using the system. The entire procedure will take approximately **10–15 minutes**.

Your participation in this study is **completely voluntary**, and you may withdraw at any time without any consequences. All the information you provide will be treated with **strict confidentiality**. Your identity will not be disclosed, and the collected data will be used solely for academic purposes.

There are no significant risks involved in this study, aside from the time you will spend. However, your participation will help improve the system and make it more user-friendly.

MICHAEL B. AMATA
Course Instructor, Computational Sciences Department

By participating in this study, you confirm that you understand its purpose and agree to take part voluntarily.

"I voluntarily agree to participate in this study."

Participant Information(Optional)

Name: _____
Year/Course & Section: _____
Signature: _____

Contact Information

Group Leader: **Rica Rose R. Vipinoso**
Email: **ricarosevipinoso94@gmail.com**

PART II. Demographic Profile

Age: _____
Gender: _____
Course/Program: _____
Year Level: _____

Experience with similar systems: ☐ Yes ☐ No

Frequency of technology use:
☐ Daily ☐ Weekly ☐ Occasionally ☐ Rarely

PART III. SYSTEM USABILITY SCALE (SUS)

The following questionnaire is designed to measure the usability of the system. Please indicate your level of agreement with each statement based on your experience while using the system.

Instruction : Please read each statement carefully and check the number that best represents your level of agreement.

Use the scale below:

1 – Strongly Disagree
2 – Disagree
3 – Neutral
4 – Agree
5 – Strongly Agree

No.	Questions	Scale				
		1	2	3	4	5
1.	I think that I would like to use this system frequently.					
2.	I found the system unnecessarily complex.					
3.	I thought the system was easy to use.					
4.	I think that I would need the support of a technical person to use this system.					
5.	I found the various functions in this system were well integrated.					
6.	I thought there was too much inconsistency in this system.					
7.	I would imagine that most people would learn to use this system very quickly.					
8.	I found the system very cumbersome to use.					
9.	I felt very confident using the system.					
10.	I needed to learn a lot of things before I could get going with this system.					

PART IV. OPEN-ENDED QUESTIONS

1. What did you like about the system?

2. What improvements can you suggest?
